CUSTOM SHEET METAL FABRICATION

Laser Cutting

Cutting metal sheets according to customer drawings and dimensional requirements.

Punching

Punching holes, contours and other features according to product requirements.

Bending

Bending metal sheets to the required angles and dimensions according to customer drawings.

Welding

Welding according to the product structure and material requirements.

Sheet Metal Forming

Custom forming according to product structure and drawing requirements.

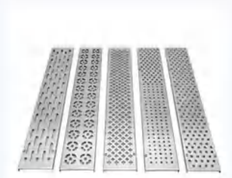
Surface Treatment

Providing surface treatment services according to product application and requirements.

- Sheet metal processing and metal product manufacturing are available based on customer drawings, samples and specific requirements.
- Technical data and processing requirements are subject to customer drawings and written agreements between both parties.

PRODUCTS & MATERIALS

- From metal material supply to sheet metal processing, JMJD can provide the appropriate materials and processing support based on customers' product requirements.
- Whether for standard material procurement or custom sheet metal products based on drawings, we can provide support according to the specific requirements of each project.



- We use German TRUMPF sheet metal processing equipment, ensuring the quality of every part with high precision and stability. Reliable equipment makes reliable products.

QUALITY & PROCESS

Material Confirmation

Confirm materials, specifications and customer requirements.

In-Process Inspection

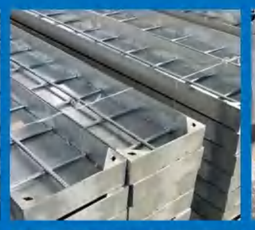
Monitor the processing according to drawings and processing requirements.

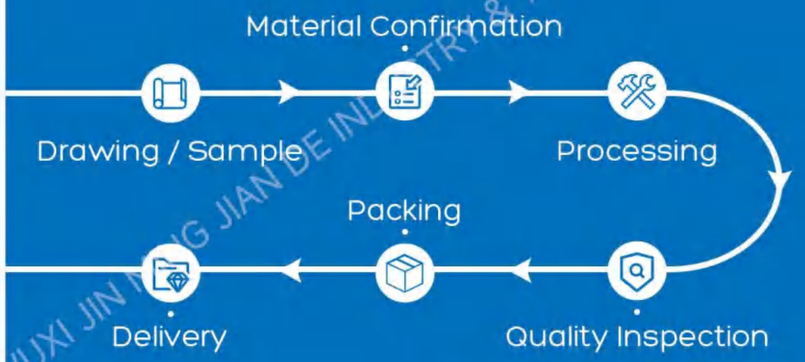
Finished Product Inspection

Check product dimensions, appearance and processing quality.

Packing Inspection

Prepare packaging and shipment according to product characteristics and transportation requirements.





Each project is carried out according to customer drawings, samples and specific require

WUXI JIN MING JIAN DE INDUSTRY & TRADE CO., LTD

COMPANY PROFILE

Wuxi Jin Ming Jian De Industry & Trade co., LTD.(JMJD) was established in 2014 in Wuxi, Jiangsu. We specialize in metal materials export and processing services, supplying stainless steel, carbon steel, aluminum, galvanized steel, PPGI, etc. We have long-term business relationships with customers in Europe, the Middle East, Southeast Asia, Africa, and South America.

JMJD owns a professional sheet metal manufacturer–Wuxi Dafurong Intelligent Manufacturing Co., Ltd. Founded in 2005 and formerly known as Furong Laser, Dafurong has long been engaged in laser processing and sheet metal manufacturing. It has accumulated mature process capabilities and cost advantages in laser cutting, stamping, bending, welding, forming, and surface treatment. Based on this manufacturing cost advantage, JMJD further expanded into metal raw material supply, creating an integrated service chain from raw materials to processing and delivery.

Leveraging Dafurong's manufacturing capacity, we can provide laser cutting, stamping, bending, welding, forming, and surface treatment according to customers' drawings, samples, and specific requirements. From material supply to manufacturing and final delivery, JMJD is committed to providing overseas customers with complete, convenient, and cost-effective metal product solutions.
